Letter of Reference

June 1st. 2006

Dear Sir or Madam,

The Best Entertainment Corporation with its headquarters located near Frankfurt/Main, is one of the largest German marketing companies in the film business.

We produce a complete range of feature films for the German-speaking market including nature and documentary films for the entertainment industry.

In addition to marketing films produced by external companies we regularly shoot our own productions all over Europe. Thus it is extremely important for us to select competent film makers.

Mrs Christine Wagner has been a member of our production team since 1998 and has produced numerous films in our name as director of photography.

We are highly impressed by her extremely professional manner of working which is, without a doubt, to be attributed to experience gained in the USA. Not to mention her flexibility and speed of work on the set. In addition it is necessary to draw attention to her creativity and ability to arrange the images at a very high level (regardless of whether they are on 16mm, Super 16, 35mm or HD).

We are more than satisfied with Mrs Christine Wagner. As a freelance employee she is an indispensable colleague and thus we would not hesitate to further recommend her.

Yours faithfully,

Thomas Webert (Managing director)
